

Trinity TV: A Guide

Learning on Demand

Also featuring our 'Trinity TV Times' magazine for you to browse as
part of our 'Trinity TV Live' provision.

Which sessions will *you* choose to watch?

Trinity TV

What is Trinity TV?

At Trinity Academy, we are committed to ensuring that students receive a high-quality education, regardless of circumstances. We recognise the importance of providing students with a range of opportunities, especially during periods of home-learning. With this in mind, we are excited to introduce you to our home-learning platform: Trinity TV! Our staff have really enjoyed creating engaging materials for all students to enjoy and there are also opportunities for live interactions too!

This online platform contains pre-recorded materials made by subject teachers to ensure that home learning is as interesting, purposeful and accessible as possible. Our staff at Trinity Academy are passionate about the subjects they teach and the areas they lead on, and have been working hard behind the scenes to ensure that students continue to have access to a World Class provision which is purposeful and dynamic, while also providing opportunities for students to reflect on their progress. It's what we do – and we're not going to let any barrier stop us! Students will be able to watch the video content when they're able to with the facility to pause, rewind, and re-watch when necessary!

What do the lessons look like?

Each pre-recorded lesson contains activities which work towards a clear objective. Although each lesson may look different, all will have the benefit of a subject expert providing clear verbal explanations and instructions throughout, to ensure that all lessons are easy to follow! In addition, the video format enables students to watch the lesson content at their own pace and all materials can be accessed via phones, tablets or laptops.

How do students access Trinity TV?

Students access Trinity TV via the academy's website. Please follow this guide for further instructions <https://halifax.trinitymat.org/home-learning-2/trinity-tv/>. All resources produced are in line with the curriculum and follow a logical lesson sequence to support students with their progression outside of the classroom environment, so all students need to do is follow their timetable as normal and select the lessons relevant to their academy day!

How is students' work assessed?

Having followed each sequence of lessons, it is an expectation that students submit a weekly activity for each of their written subject areas. This includes: English, Maths, History, Geography, MFL, RS and Science. Each final activity will be completed on Microsoft Forms and automatically submitted to students' subject teachers directly for feedback where necessary. These online forms are saved in each subject area's folder on the Trinity TV section of SharePoint. **It is really important that students complete the Microsoft Form attached to each learning sequence,**

as this will be used to track and monitor progress while enabling teachers to assess the quality of the work produced and provide valuable feedback.

Students should work through the lessons provided and complete as much as they can in their usual time slot. The work students submit will be tracked, phone calls will be made home where necessary, and all teachers will provide feedback via email in a timely manner and in line with the academy's marking policy. All teachers also remain contactable on their academy email address, if a student requires any additional support.

Resources for accessing students' Science work are available by logging into their student Educake account: <https://www.educake.co.uk/>. In addition, all Maths work is available on their student Hegarty Maths accounts: <https://hegartymaths.com/>. These platforms work in the same way as Microsoft Forms in terms of teacher tracking and feedback.

Are there opportunities for students to engage in practical subject areas?

Absolutely! Practical subject areas have also enjoyed making their lessons accessible for students at home and you don't need lots of resources – or a lot of space – to take part! These departments will continue to provide weekly 'Trinity Challenges' if students wish to join in, and our Hospitality and Catering team have created some simple recipes for students to try if they would like to get involved, all of which can be found under their subject tabs on Trinity TV. We would love to see our students rising to the challenge and giving them a go, sharing their efforts with us along the way! Make sure you continue to follow our Trinity Challenge Instagram: @trinitychallenge2020

Are there other sessions on offer alongside subject lessons as part of Trinity TV?

Yes! If you have a look at our Trinity TV Times guide, you will also see a 'Trinity On Demand' section. This advertises additional videos for students to watch at some point during their day, and at their leisure. Don't forget to keep up to date with our social media for more specific information!

Trinity TV Live

What is Trinity TV Live?

To enhance our Trinity TV provision even further, we are excited to introduce to you our Trinity TV Live programme! This is the home of our live provision, brought to you by our very own staff with the aim of providing the best remote learning experience possible. We may even invite some special guests along the way! Each week, our department areas will provide a live element of learning for all students to engage in as an optional extra if they wish to access this support. Students can enjoy the social interaction element of communicating with their friends and teachers as part of these sessions too!

How do students access the live sessions?

Each week, staff will send students an invite via Microsoft Teams to their live session. Once students accept this, they just need to turn up on time and take part! Please see this helpful guide for further information <https://trinityacademyhalifax.sharepoint.com/sites/tah-trinitytv/SitePages/TrinityTV-Student-Help.aspx>

What will the live sessions look like?

What makes our live sessions so exciting is that they will each look different depending on what the focus will be for each, and this may well change each week. They will all start at the allocated time, but will run for different periods of time and be no longer than their hour time slot. This will be communicated in advance when students receive their Teams invite to join.

As part of these, students will be given the opportunity to speak to us, share their work, and ask us any questions which they may have! These will also be led directly by our staff who may use their session to live teach. See our Trinity TV Times guide for more detail, and remember to keep up to date with our social media to find out more about what certain sessions aim to cover. Teachers may also contact students directly about additional opportunities. As part of this provision, we are also pleased to be able to offer various enrichment opportunities, and our Phase Leaders will be on hand weekly to host live drop-in sessions and to deliver assemblies and updates.

It will be like we're all under the same roof!

Do students have to partake in *all* of the live sessions on offer?

We would love for all students to engage in these as much as possible as they will provide valuable opportunities for specific support and interaction. However, students must ensure that they complete the Microsoft Form for their subject areas on a weekly basis as part of their main Trinity TV home-learning provision. Our live element seeks to enhance our students' remote learning experience, so they continue to receive a varied educational diet at home to the very best of our ability! It may even be the case that our staff direct students to certain sessions which they feel will be of benefit to individuals at various times.

Where there is a live slot which students would like to take part in, they should consider how they will utilise their time so that their written work can still be completed at the end of each subject's lesson sequence. There will be support on hand if students need some practical tips on how they can best manage this through some of our live sessions on offer, such as our Phase Leader briefings, but students are also welcome to contact our College Manager team directly.

Happy viewing!

Wellbeing Support at Trinity Academy

While engaging in the home-learning materials on offer, prioritising mental health and wellbeing is of paramount importance, especially at this time when students are out of their regular routines. So, it's really important that we recognise this, make a conscious effort to focus on self-care, and put helpful strategies in place to lift our moods if needed. Showing an interest in what your child is working on and encouraging discussions about their learning will help them to maintain a positive attitude and boost their motivation. We also hope that, by providing a wide range of provision for students to access, it will help to ensure that their day feels structured, purposeful and interesting!

Where can I access resources to support mental health?

If you would like any further resources to support managing mental health, we have provided some on our [website](#). You will also find links to expert agencies for tips and further guidance, including how further specialist support can be accessed. Our main expectation is that students stay safe and keep in touch with their teachers if they would like any further guidance – or if they would like to share and celebrate their achievements!

What is the Trinity Safety Net?

Trinity Safety Net is an anonymous online platform where you can find information and advice about mental health, lifestyle, relationships, and school. Once students log in, you can use the helpful links, videos, and resources which are accessible 24/7. We would like all our students to explore our Trinity Safety Net webpage, which can be accessed via [our academy's website](#). Phase Leaders will also be discussing this in their Monday assembly slot as per the Trinity TV Times guide.

How can students arrange to speak to a member of the Pastoral Team at Trinity Academy?

To support students during this period of isolation, we are hosting regular Wellbeing Hub sessions as part of our live provision. In order to access these, students should email their College Manager in advance with a brief description of what they would like to talk about.

A reminder of the relevant College Manager's email address is below. We will then be in touch as a matter of priority to arrange a time for this session as per the Trinity TV Times Guide. These will be hosted by our Pastoral Team and will be a valuable opportunity for students to have 1:1 discussions about any issues or concerns they may have so that we can continue to provide personalised support and guidance.

Trinity TV Times Guide

'The show must go on!'

Trinity TV Times

Trinity TV Times: a helpful guide to give you a taste of our live sessions on offer each week.

Why not have a look now and decide which ones you would like to attend? Then, sit back and keep an eye out for your Microsoft Teams invitation from our teachers who will also provide you with further details about each specific session in advance of it beginning. Please note that sessions will each have a different running time, but all will begin at the start time stated on the schedule, so please arrive promptly. It's as easy as that!

Take a look at our 'On Demand' section too. Here you will find some of our Trinity TV recordings on offer to you each day which you can watch at your leisure. We hope these will help you to break up your time, while providing some entertainment along the way!

As much as we would really like you to take part in these live sessions alongside your main Trinity TV provision, don't forget to complete your weekly activity on Microsoft Forms for your subject areas. This is how the work you produce will be monitored by our staff so that timely feedback can be provided by your teachers on your home-learning.

Don't forget to keep your eyes on our social media platforms for regular updates about some of our sessions! We can't wait to share with you what we've got coming up! Also, follow our Twitter and Instagram accounts (@trinitychallenge2020) to take part in our Trinity Challenges today! You can also find our Trinity Challenge booklet here. <https://halifax.trinitymat.org/wp-content/uploads/2020/06/Trinity-Challenge-Booklet.pdf>

What's On?

On Demand	
On Demand Videos will be found within your year group folders in the 'On Demand' folder in our Trinity TV sections. The 'On Demand' works in the same way as the subject folders: you just need to click it!	
D&P Wednesdays	Every Wednesday, our Design and Performance team have created some fun TV shows for you to enjoy and get involved in. Please see our weekly social media posts which will advertise each one in advance so we can maintain an element of surprise!
Assembly	Each week, your Phase Leader will share an assembly with you. This will differ each week, just like when you're in the academy building.
Morning Briefing	Your Phase Leaders will host briefings each week to update you on important points to consider, including any relevant reminders.
Wellbeing Tips	Staff at Trinity have put together some useful sessions to support you with your wellbeing, including topics about time management while you take part in home-learning.
Trinity Jackanory	This was such a success last time that we're back with more! Tune in every Friday to listen to our staff reading aloud to you.
Careers/News	Don't worry if you don't know where your education will take you; that's what we're here for! We hope these sessions will give you an insight into what careers are out there, as well as offering specific support on how you can get there!

Live Sessions	
Subject Areas	Each week, your subject areas will tailor their sessions to suit what they feel is the most beneficial to you at the time. You will receive details each week in advance of the sessions beginning, but here's a taster of what you could expect from these: <ul style="list-style-type: none"> • Live question and answer drop-in sessions • Live modelling/teaching, perhaps to address a whole-class developmental area • Live quizzes • Various practical activities which you can join with at home, such as an experiments in Science, creating music in D&P, or even reading along with us in English!
Live PE	Who needs Joe Wicks when we have our PE staff here at Trinity Academy? Use this time to get fit – it really helps with your wellbeing, too! Tune in each week and enjoy what our staff have planned for you. Just make sure that you have a bit of space for this and are wearing something comfortable!
Phase Leader Drop-In	Would you like to speak with your Phase Leader directly? No problem! Tune in at this time and they're guaranteed to be on hand.

Week Commencing: Monday 11th January
